

Solution used: i-House

Client:

Flagship Homes

Location:

Great Ellingham, Norfolk

Services provided:

- Design
- Manufacture
- Install

Project overview:

60-home development. Roofspace Solutions were selected to provide the i-House full housing shell to all 60 plots.

Product benefit:

i-House is a housing solution, which provides a full, watertight shell ready to receive roof coverings in just five days.

The quality and speed of Roofspace Solutions' work has been an instrumental part of bringing Crown View to life and we can't wait. We've really seen the benefits of the off-site construction, and it's fantastic knowing that the homes are future-proofed and constructed with sustainability in mind.

Oleg Barsoukov, Senior Delivery Project Manager, Flagship
