Solutions used:

Floor & Roof Cassettes
Roof Trusses

Client:
Innovaré Offsite Ltd

Location:
Okehampton, West Devon

Services provided:
- Design
- Manufacture

Project overview:
Purpose-built special needs school building.

Product benefits:
By fabricating materials and components off-site, the quality and processes are managed closely, helping to increase efficiency.

"The team took special care to design each Posi Joist before drawing them into individual cassettes to be manufactured. We're delighted with the final result and are thankful to Innovaré Offsite for approaching us to work on this project."

Donald Matheson
Technical Manager
